

European Aviation Safety Agency

Terms of Approval

Design Organisation Approval Certificate EASA.21J.270

1. Scope of approval

This Design Organisation Approval has been granted for:

- designing piston engines and changes and repairs thereto in accordance with the applicable type certification basis and environmental protection requirements
- showing and verifying the compliance with the applicable type-certification basis and environmental protection requirements, and
- demonstrating to the Agency this compliance.

2. Categories of products

Piston engines

3. List of products

Limbach L1700
Limbach L2000
Limbach L2400

4. Privileges

(a) The holder of this design organisation approval shall be entitled to perform design activities under Part 21 and within its scope of approval.

(b) Subject to 21A.257(b), compliance documents submitted by the holder of this design organisation approval for the purpose of obtaining a type certificate or approval of a major change to a type design shall be accepted by the Agency without further verification.

(c) The holder of this design organisation approval shall be entitled, within its terms of approval and under the relevant procedures of the design assurance system:

1. to classify changes to type design and repairs as "major" or "minor".
2. to approve minor changes to type design and minor repairs.
3. to issue information or instructions containing the following statement: "The technical content of this document is approved under the authority of DOA nr. EASA.21J.270".
4. to approve the design of major repairs to products for which it holds the type-certificate.

5. Limitations

[See in 1, above]

Certification of piston engines in accordance with CS-22 Subpart H only.

Date of issue: 27 September 2005
